The Bowlers	3	9	250	1,259
First Club	2	10	167	1,484

At the Wheeling Park bowling alleys Saturday evening the Intelligencer and Calumet bowling clubs played two championship games, which marked the conclusion of the sixth week of the season of the Wheeling Bowling League. The Calumet boys expected to end the evening's play with two games to their credit, which would have put them on a tie with the Intelligencer for fourth place. That they did not take the second game was the fault of one of their own players, Cameron, who made 123 pins.

The first game was very close, the Calumets winning by but 15 pins. Maris made the best score, 230, while Blundell led for the Intelligencer with 220. The score in detail:

CALUMET.				INTELLIGENCER.			
	at	sd	bk sc.		at	sd	bk sc.
E. Lang.....	6	2	291	Archer.....	7	1	221
Maris.....	8	1	230	Borland.....	7	1	220

Truschel.....	7	0	176	Brewster.....	3	6	171
Totals.....	53	6	1818	Totals.....	53	11	1115

The second contest did not show any great improvement in the scores, and the newspaper boys won by thirteen pins. Cameron's poor showing and Borland's 230 score are accountable for the victory of the Intelligencer team. The result puts the latter team and Columbia tie for third place in the race. The score:

This is the seventh week of the bowling league season and marks the completion of half the championship season. This evening the Wheeling Athletic Wheelmen and Press Club meet at Seibert's, Columbia vs. Calumet; Thursday, at Mozart Park, South Side vs. The Bowlers; Saturday, at Seibert's, Intelligencer vs. Wheeling Bowling Club.

The Wheeling Athletic Wheelmen Company held its annual meeting and elected the following board of directors: Charles H. Geiger, Dr. John H. McCune, Charles K. Strobel, George Peabody and J. C. Stamp. C. H. Geiger was re-elected president and Herbert Riheladoff was again chosen secretary-treasurer. Plans for the coming bicycle racing season were talked over, but nothing has yet been decided upon, except that Wheeling will be admitted to the international racing circuit, and the tournament will again be managed by the W. A. W.

The annual assembly of the L. A. W. takes place in Louisville next month. The West Virginia division will be represented by Chief Consul Jason C. Stamp and probably Secretary H. Riheladoff. The principal questions to be decided are the negro exclusion, amateur rule, and the location of the annual summer meet for 1894. The New York Wheel has made a canvass of the delegates and predicts a liberal amateur rule will be adopted by a good majority. The negro will probably be excluded if the opinions expressed are reliable. The three cities after the summer meet are Boston, Asbury Park and Denver. The latter city seems to have the call, though Boston seems to present more advantages. The West Virginia delegates are said to be against a liberal amateur rule.

Everett C. McClelland, the well known local runner, who has bested the top-notchers in this country, and at the longer distances is considered without a peer, has sent the following very sweeping challenge to the INTELLIGENCER, which includes runners, horsemen and cyclists:

I hereby challenge the world to a foot race from five miles up to twenty-five miles from \$250 to \$1,000 a side and the championship of the world to take place four weeks from signing articles; first come first served; and I do challenge any trotting horse, pacing horse, running horse or any bicycle rider in the world for any of these races I mention. I will run a half mile on foot while a horse trotting or pacing does one mile for \$250 or \$500 a side, best two in three heats; or I will run 420 yards while a running horse runs a half mile, best two in three heats for \$250 or \$500 a side; or I will run 700 yards while a horse runs a mile, best two out of three heats. I will run a mile on foot while a bicycle rider rides two miles for \$250 or \$500, or I will run two and one-half miles while a bicycle rider rides five miles for a prize or for the cash. Cheer up boys, come to the front and give me a chance to live. I will further state I will run five miles of the Martin's Ferry horse team for the benefit of the poor, provided the poor committees will allow me one-third of the proceeds for my training expenses. Now, here is a chance for the Martin's Ferry horse team to help the poor and see a good race.

E. C. McClelland.

The annual meet of the West Virginia division, League of American Wheelmen may be held in Parkersburg. The Wood county metropolis as promised it last summer but agreed to let Wheeling have it when the big racing tournament was decided upon. If Parkersburg wants the meet this year, she can get it. It has been suggested that June would be the ideal month for the meet.

I prescribe Simmons Liver Regulator, and it deserves all the praise it receives.—Dr. D. W. Atkinson, Siloam, Ark.

STATE NOTES.

It weighed twenty pounds exactly, was thirty-four inches long and twenty-three inches around, and its tail was ten and one-fourth inches broad. Its scales were as large as silver dollars and many people got to keep as souvenirs. It was a regular curiosity in the fish line and by far the largest ever captured in the South Branch.

CHAMBERLAIN DENIES

That there is a Unionist Scheme for Home Rule Pending.

LONDON, Jan. 28.—Joseph Chamberlain denies any knowledge of the alleged unionist scheme for home rule published in the *Speaker*, a well-known Gladstonian weekly newspaper.

John Redmond, the Parrellite leader, in an interview said that he would not be surprised if such a scheme were under way. Balfour's recent utterances, he said, were significant, as an indication that the opposition condemned Gladstone's bill rather than home rule generally.

Mr. Redmond then proceeded to comment strongly upon Edward Blake's appeals to America for aid to the starving victims of eviction. Mr. Redmond said that these appeals were open to criticism when Mr. Blake's party could, if it were harmonious, get £30,000 out of the Paris funds without any legal obstacle being offered.

GOLD, SILVER AND LEAD

Discovered Near Bournville, Ohio—The Mine to be Operated.

CINCINNATI, Ohio, Jan. 28.—Gold, silver and lead have been discovered in Spruce Hill, near Bournville, Ross county, by A. W. Stretcher, of Xenia, who became wealthy by similar discoveries in California forty years ago. Springfield capitalists are associated with him. They have been prospecting over six months, and will begin digging in two weeks. W. E. Mitchell and Miss Sallie Mitchell own the hill in which they have found the precious metal.

The Pope's Reception.

Rome, Jan. 28.—Pope Leo XII gave a reception to-day in St. Peter's to the clergy and Catholic laity of this city.

After saying mass in the Basilica at 9 o'clock the morning the pope, enthroned, listened to the address of the senior parish priest of Rome.

The pope then spoke a few words, after which the papal allocution was read by Mr. Volpini.

Twelve thousand persons were present and greeted the pope with prolonged cheering.

Leo XIII looked well, except that he was a trifle paler than usual.

A Convict Attempts Suicide.

COLUMBUS, O., Jan. 28.—There was a sensation in the big dining room at the Ohio penitentiary to-day when Convict John Conroy rose in the presence of the 1,900 prisoners seated at breakfast and announced his intention of taking his own life. Conroy slashed the side of his neck with the knife with which he had been eating, and after he sat down the blood poured in a stream over his shoulder. Conroy was taken to the hospital, where it was found that the wound would not be fatal.

George McCrum's Awful Act.

His wife was in a faint and the baby was bawling its head in the blood from the wound when they were discovered by neighbors.

A LIVELY SCENE

In the French Chamber of Deputies—Violent Language by Socialists—The Sitting Suspended.

PARIS, Jan. 28.—There was a turbulent scene in the chamber of deputies yesterday, and the sitting was finally suspended peremptorily by the president.

M. Clovis Hugues, one of the deputies from the Seine, interpellated the government on the recent arrests of anarchists. During the course of his interpellation M. Clovis Hugues caused considerable interruption upon the part of the support of the government by reproaching the latter for persecuting the anarchists as a pretext for suppressing the socialists. The speaker also insinuated that the government was acting with a purpose in illegally seizing correspondence.

M. Reynal, minister of the interior, replied that the government only applied the laws which have been passed by the chamber of deputies, and justified the seizures of correspondence by quoting extracts from the writings of Roccus, the friend of Vaillant.

M. Reynal also said it was difficult to distinguish between anarchists and socialists.

Then followed a scene which has rarely if ever been equaled in the chamber of deputies. Men cursed and swore at each other, shook their fists beneath each other's noses, several breaches of the peace occurred, and one pugnacious deputy went so far as to challenge a fellow member to decide their differences by a recourse to *la seurt*. M. Thivrier, a so-called "workman's deputy," who has already made himself notorious by wearing a blouse in the chamber of deputies, became so excited that he threw his cap in the air and shouted "Vive la Commune!" and a number of communistic exclamations which entitled him to censure and expulsion from the chamber.

The president's deputy thereupon invited the deputy to withdraw the expostulations which he had used. M. Thivrier refused to do so in the most violent language. This caused President Dupuy to firmly request M. Thivrier to leave the chamber of deputies. Then followed another scene of extreme disorder, all the Socialists rising in their seats, gestulating violently and uttering all kinds of loud protesting cries and insulting remarks. The Socialists then formed a circle around M. Thivrier, who hurled defiance at President Dupuy, positively refusing to obey the latter's orders to leave the chamber of deputies.

Mr. Dupuy had nothing left but to suspend the sitting and he so ordered it, and also issued orders that the Chamber of deputies be cleared by the ushers.

Soldiers were finally called in to quell the disturbance, which was done with great difficulty, the violent language still being indulged in, after which the vote declaring confidence in the government was carried, 408 to 61.

Deputy Thivrier was excluded from the chamber of deputies for a fortnight and in addition he will be deprived of half his salary for two months.

THE KAISER'S BIRTHDAY

Celebrated in a Most Enthusiastic Manner on Saturday.

BERLIN, Jan. 28.—The thirty-fifth birthday of Emperor William was celebrated yesterday throughout Germany in a most elaborate and enthusiastic manner, and with a display of regard for the emperor never before manifested. The people of Germany, in addition to celebrating the emperor's birthday, have been celebrating the twenty-fifth anniversary of his entering the Prussian army, and, above all, they have been celebrating the reconciliation which has taken place between the emperor and Prince Bismarck.

Emperor William was born in Berlin January 27, 1859, and succeeded to the throne on the death of his father, the late Emperor Frederick, January 15, 1888. The splendor and enthusiasm with which the birthday was celebrated has never been surpassed in Berlin during the present reign.

BELLALICE

All Sorts of Local News and Gossip from the Glass City.

A very disastrous fire was narrowly escaped here yesterday morning. A crock chimney through the roof of Zoekler's millinery store, adjoining Central block, was cracked and from this the frame roof ignited and soon spread to the frame house of Baker Kraus and made a big blaze. The fire was discovered by a colored barber and the alarm given shortly after 1 o'clock. Prompt response by the fire department and good work with the chemical apparatus put out the fire without serious loss, though one side of Kraus' dwelling was burned through just over where the family was sleeping. The total loss is not more than \$200 or \$300, but it was a very narrow escape from much greater damage.

Mrs. Lucy M. Anderson, widow of the late Judge A. W. Anderson, died at the family residence in the Fourth ward, early yesterday morning, aged 63 years. She was well known throughout the county as a Christian woman and leaves a family of three children, Miss Lucy being a teacher in the female seminary at Steubenville, and the son Andrew being a professor at one of the colleges in the interior of the state, while Mrs. Woodbridge remained at home with her mother.

The creek here furnished splendid skating the past two days, and crowds from Bridgeport came down and enjoyed the sport with the young folks here. McMahon's creek, except just at the mouth, is very low, and this is fortunate, for at least half a dozen went through tender places in the ice. One party of three went down, and one of the young men struck head enough to go down until the water reached his neck.

The sale of the \$80,000 of county bonds at \$400 premium to a Chicago firm was not fully consummated, and the bonds were placed with the First National Bank of Barnesville last Saturday.

THE COAL TARIFF.

Mr. Alderson Calls Mr. Wilson Down Regarding the Reciprocal Duty in Canada.

WASHINGTON, D. C., Jan. 28.—In the house Saturday, Mr. Alderson, of West Virginia, called Mr. Wilson's attention to the fact that Canada had repealed the statute referred to by Mr. Wilson the other day, which provided for the removal of the Canadian coal duty when we removed our duty on coal.

Mr. Wilson said the fact that such a law had been on the Canadian statute books for years showed Canada's disposition to take off her duty on coal as soon as we removed ours.

Brutal Sport at Huntington.

HUNTINGTON, W. Va., Jan. 28.—Huntington sports on Saturday "pulled off" a fight between a West Virginia catamount weighing twenty-four pounds and an English bull dog weighing forty-two pounds. Two rounds were fought, and the dog was badly whipped. A large sum of money changed hands during the fight.

While boys were playing ball back of the general store of Hodgins & Ward at Portland last Sunday the ball rolled down under the building and two of the boys crawled under after it when they discovered two sticks of dynamite and fuse. It is believed that the dynamite was put there for the purpose of blowing up the building, which is not only occupied by the store and hall, but by a family as well.

About twenty-five families applied for aid on Saturday. The latest contributions are: O. R. Wood, one barrel of flour; E. C. Boyd, \$2 worth of coffee; Miss Jennie Milhous, bread; W. N. Holliday, provisions. Eight or ten more men will be put to work on the streets this morning, and others on Wednesday or Thursday. Funds and provisions are needed.

Miss Kate Grier delightfully entertained a party of her young friends at her home on South Third street, on Friday evening, in honor of Mr. and Mrs. John Turner, who were recently married.

The funeral of Russell, the little son of Mr. and Mrs. John Farnell, took place yesterday afternoon and was largely attended. Rev. Robbins officiated and the interment was at River-view.

The school children are getting over vaccinations and the attendance is increasing. All children must go to school. Those who have not books will be provided with them by the board.

Seats are selling well for the Schumann Lady Quartette to-night, and the indications are that the house will be filled. This is the Y. M. C. A.'s extra, and it comes highly recommended.

Many persons have already been converted during the revival in the M. E. church. The attendance is very large.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.
